- Cookery Club
- Brownies
- Art Club
- Young Investigators
- Table Tennis
- Wall Climbing
- Gardening
- Football Manager
- Gymnastics
- Judo
- Swimming
- Rugby

welcome to ASHVILLE COLLEGE

Years 3 – 6 are a time of great change for your children. You will see them develop very quickly, both academically and socially. Ashville Junior School fosters a special community, instilling values and standards which are often overlooked in the twenty-first century. With awareness of each other and society in general, children grow up with confidence within a Christian framework; this is all part of being a Methodist school.

Our Junior School is an integral part of Ashville College but it has its own premises and a very distinctive identity. We strive to create an ethos where academic success is gained by valuing learning in an understanding and well-structured environment. The school caters for the needs of a range of abilities in a balanced curriculum, making each pupil feel valued, included and secure.

We have small classes, motivated pupils and committed teachers. There is lots of laughter and fun in the school – and most importantly there is an incredibly strong community spirit that unites us all.

The pages which follow will give you a flavour of what we have to offer, but nothing can replace a visit to the school itself.

I very much look forward to meeting you and discussing the individual needs of your son or daughter.

A handwritten signature in black ink that reads "Jonathan Dolman". The signature is written in a cursive, flowing style.

Jonathan Dolman
Head of Junior School

Junior School Curriculum

- Art
- Design and Technology
- English
- French
- Geography
- History
- Information Technology
- Maths
- Music
- Physical Education
- Religious Education
- Science

accepting responsibility

We believe that when children arrive in Junior School, they can accept more responsibility and face new challenges. The Junior School Council meets regularly and is made up of an elected representative from each class. It listens to the views of all the children and implements many of their ideas. In all aspects of their school life, from lessons through to playtime, we do everything we can to help them meet and enjoy the challenges they face.

The Junior School is housed in a separate building within the school campus. It provides a unique space with its new ICT resources centre, library, assembly room and 10 refurbished classrooms. The school has its own separate playground and grassed area with an outdoor adventure trail.

The swimming pool, sports hall, playing fields, music practice rooms, junior science labs and theatre are all close by for use by Junior School pupils.

the following subjects are taught by specialist teachers:

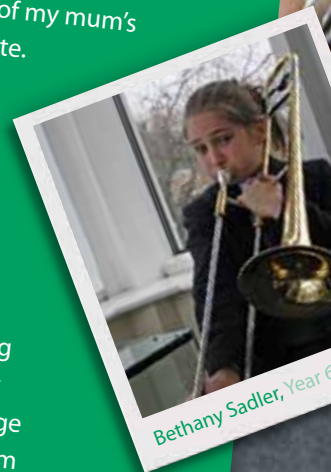

- French
- Music
- Science
- Information Technology

STUDENTPROFILE

"I have moved schools a few times because of my mum's work and I have to say Ashville is my favourite. I enjoy literacy, games and music as I love writing, reading and playing hockey and the music lessons here are so fun. Once a week, I take Trombone lessons with Mr Simpson which I always look forward to and I am doing my grade 2. Last year I had a part in the school play which was good for me because I love drama. My favourite thing about Ashville is the fact that there are so many opportunities and that all the teachers encourage you along the way. When I join senior school I am looking forward to taking drama lessons as well as experimenting in science."

Bethany Sadler, Year 6

learning & growing

The Junior School embraces the aims and objectives of the national curriculum and pupils take part in an entrance exam in January of Year 6 before going in to Senior School. The curriculum is further enhanced by ample provision of wider subject areas, such as foreign languages, music, drama and sport.

To broaden their experience pupils are encouraged to take part in a wide range of activities in break times and after school. In addition, they benefit from educational visits both at home and overseas.

Ultimately, all of our Junior School students are given a firm grounding, both in and outside of the classroom, which allows for a smooth transition into Senior School.
